# PURPOSE OF HOMESCHOOL EDUCATION & SVHDP

1. God-directed and parent-supervised homeschool education prepares students for responsible adult life by attending to their spiritual as well as intellectual and developmental needs. By challenging the student to achieve at their highest level possible, he/she will establish a firm foundation to attain their goals. In conjunction with their families, churches and community institutions, homeschool education prepares students to become life-long learners and responsible, involved adults.

2. Together with parents, families and churches as well as community institutions, homeschool education provides opportunities for students to (1) develop godly character, (2) acquire knowledge and skills, (3) think critically, and (4) work cooperatively as well as independently.

3. Home-based schools provide instruction throughout the required years of schooling with individually chosen curricula so that students may develop knowledge and skills in the following areas:

- A. Reading, writing and speaking.
- B. Mathematics
- C. Science.
- D. Social Studies.
- E. Arts and humanities.
- F. Career education and work.
- G. Family and consumer science.
- H. Health and physical education.

The Susquehanna Valley Homeschool Diploma Program (SVHDP) was developed for the purpose of providing a high school diploma which satisfies or exceeds the standards established in the statues of Pennsylvania's Law.

The SVHDP offers four diploma options to Pennsylvania residents. The *General Diploma* is granted to any student who has completed the basic requirements of the law and has evaluator letters to confirm this fact. The *Vocational Technical Diploma and Business Diploma* are earned by a student who completes the basic requirements and prescribed courses in their specialized area of study. The *Academic Diploma* is granted to those students who wish to continue in higher education and meet those specific requirements outlined.

We expect high school students to take full responsibility for their own education with guidance from their parents/supervisors. The student will get out of his/her education what he/she puts into it. These are minimum requirements for graduation. However, we expect many students to exceed these requirements. This effort can truly pave the way for what will be a lifetime of learning.

Graduation exercises planned by SVHDP will be instituted one a year; at the end of the spring semester (July). Students can complete graduation requirements at the end of the fall semester and receive a diploma. They can participate in the graduation exercises at the end of the spring semester, if desired. If a family prefers a smaller, more intimate ceremony instead, they may choose to hold individual graduations on their own. All diplomas are sent out after the graduation date to those not participating in the ceremony. Diploma covers will be made available to those who are planning private ceremonies.

These minimum requirements necessary to graduate from a homeschool education program include completion of the following:

- 1. Four years of English
- 2. Three years of mathematics (must be three different courses of study)
- 3. Three years of science (must be three different courses of study)
- 4. Three years of social studies (must be three different courses of study)
- 5. Two years of arts and humanities.

The law also requires that the following areas must be covered in some way at the secondary level (7 through 12):

Geography	Civics
World History	U.S. and Pennsylvania History
General Mathematics	Algebra
Geometry	Music
Art	Physical Education
Safety Education, including fire safety	Health and physiology

The law does not stipulate how much of each subject must be covered. The individual subjects could be taken as a credit, with the proper amount of study, and would be listed for credit on the transcript. For example - U.S. History (including geography). Subjects may also be covered in seventh or eighth grade with evaluator verification, but will not appear on the transcript.

# **COURSE REQUIREMENTS AND OPTIONS**

At the secondary school level, the following course may be taught to fulfill credit requirements. (Note: When a student has completed the requirements for one year's work, he/she is finished with that course even if it does not take him/her a full calendar year to complete it.):

1. English: requirements include integrated reading (literature), composition, listening, speech, literature and grammar (All of these areas must be covered).

2. Mathematics: options can include general mathematics, business mathematics, consumer mathematics, algebra, geometry, trigonometry, calculus and computer science. (Problem-solving and reasoning being key components to the courses covered).

3. Science: options include astronomy, biology, chemistry, ecology, earth science, general science, geology, physical science, and physics. Biology, chemistry and physics are called "laboratory sciences" and should have a hands-on component.

4. Social studies: options can include anthropology, culture studies, geography, ancient and world history, U.S. and PA history, modern history, political science, psychology and sociology.

5. Arts and humanities: options can include art history, Bible, theology, foreign languages, visual

arts, music, music history, music theory, dance, theater arts, film studies, practical arts and crafts.6. Health and physical fitness: options include study of family and community health and safety,

nutrition, and physical fitness. (including instruction every year about prevention of alcohol, chemical and tobacco abuse.)

The following additional courses of study can be applicable to all students and are recommended courses of study.

7. Career education and work: options include hands-on learning of skills in entrepreneurial settings, on-the-job training, introduction to developing job-seeking and job-retaining skills and for students completing vocational technical programs, the skills to succeed in the occupation for which they are being prepared. Driver's education is recommended for age appropriate students.

8. Family and consumer science: options include home management, basic knowledge of child health and child care skills.

# **Evaluations**:

A student must have four evaluations or evaluations combined with transcripts from public or private school. If a student is planning to complete high school in less than four years, he/she will need a mid-year evaluation to establish compliance with all requirements. This will allow graduations to occur twice a year instead of the usual once in June. These evaluations must accompany the student's transcript to receive a diploma.

# **Evaluators**:

Each evaluator who wishes to be recognized by SVHDP shall have two year's work experience in evaluating secondary level, <u>OR</u> two years experience as the supervisor of a secondary level home education program, <u>OR</u> be a certified teacher at the secondary level. All those wishing to be evaluators <u>must be interviewed</u> and approved by the SVHDP Board of Directors. To begin this process, an evaluator should send a resume, teaching certificate (if applicable), and child abuse clearances to the SVHDP with a request for an interview. The evaluator will be contacted in order to arrange a meeting time.

# **Transfer of Credits:**

We accept transfer credits. If a student transfers to home education from a school, credit for school courses completed will be accepted by the SVHDP upon receipt of the school transcript. Where homeschoolers have not kept good documentation in the past, the evaluators, at their discretion, may accept credits for previous schooling completed based upon interviews with the parent and student. Likewise those students who transfer from out of state must supply documentation of credits which may be accepted, at the discretion of the evaluator.

# How Credits are Awarded:

Supervisors of home education programs (parents) award credits to their children. Upon evaluation and interviewing, the qualified secondary education evaluator who has agreed in writing to our standards and has filed his/her credentials with us, accepts those credits by completing and signing his/her name on the SVHDP transcript forms. Those credits are then accepted by and filed with the program.

# **Provisions for Students with Disabilities:**

SVHDP shall award diplomas to home-educated students with disabilities who are achieving up to their potential. Any of the requirements listed may be waived by the evaluator if he/she deems them inappropriate to a student with disabilities, and if the evaluator mentions, in the evaluation letter, that the student is disabled.

# **Students Exceeding Compulsory School Age:**

# \*IMPORTANT CHANGE

# FOR ALL STUDENTS WISHING TO RECEIVE A SVHDP DIPLOMA

There is a change to the requirements for Pennsylvania students who are above the compulsory school age (17-21).

\* In June of 2008, SVHDP and all other diploma programs in the State of PA received an email and letter from the PA Department of Education that any student who turns 17 must continue filing an affidavit even if they are in a PA State approved diploma program.

If you have concerns or questions about the new mandate or problems with your school district accepting an affidavit, please contact Sandy Elliot at <u>selliott095@gmail.com</u> or SVHDP, Linda Blocker, 5714 Potteiger Ave, Harrisburg, PA 17112. Please note as well that students over the age of 21 are not eligible to receive a SVHDP Diploma (law 24P.S. 13-1301). This was not clearly stated in our diploma guides previously.

If a student is beyond the compulsory school age and still wants to receive a diploma, he/she must complete the time requisite and requirements for each unit credit, including evaluations, writing requirements and keeping a log and portfolio.

# We charge the following Fees:

1. \$45.00 (if **<u>not</u>** participating in the graduation ceremony) Transcript Filing/Diploma fee payable before the unsigned but numbered diploma is sent to the family. This includes transcript review, diploma, diploma cover and tassel for the graduate.

2. \$65.00 (if participating in the graduation ceremony) This includes the above plus the rental for a graduation gown and the venue.

3. \$5.00 Transcript fee payable each time a request is made to send a copy of the transcript to student.

# Please note the above fees are subject to change without notice in order to keep up with rising costs.

# **\*STANDARDS FOR THE GENERAL DIPLOMA \***

After meeting the graduation requirements of 15 credits, no additional credits are needed for a **General Diploma**. The following guidelines must be used to determine if credits will be issued for this diploma.

<u>General Diploma English</u>: The four years of English must include literature, composition, language and speech as follows:

1. <u>Literature</u> - For each school year, the student will read or listen to a variety of age/grade appropriate books. A book list of all the books read each year must be kept. This list is especially important if you are not using a literature text.

2. <u>Composition and Language</u> - For each school year, the student must demonstrate improvement in composition and language skills by writing at least *five pages* of composition work as evidence of completion of the composition requirements. Rough drafts showing corrections for punctuation, spelling, and/or grammatical error will be accepted to satisfy the language requirements. Alternatively, the language requirement may be met through completion of over 1/4 a language or grammar textbook or at least 30 logged entries in language or grammar study.

3. <u>Speech, Visual communications/Performance</u> - The student must give at least one speech or its equivalent in performance (musical theater, sign language-interpreting or performing, instructing/demonstrating, mime, magic presentation, etc.) during the year to of a group outside of the immediate family. Any one of the following will be accepted as proof that the student has met this requirement.

A. Notes which the student used when giving the speech, etc.

- B. Recognition from those who heard the speech or viewed the performance.
- C. A description of the speech or performance, written by the student or parent.
- D. Photographs of student making speech or performing in a play.

4. <u>Sign Language</u> - The student may receive a partial or full English credit if a sign language course of study is taken during the year. This would include textbook use, learning American Sign Language (ASL) - its structure, including idioms and cultural aspects, as well as experience with ASL.

<u>General Diploma Mathematics</u>: The three years of mathematics can include basic mathematics, problemsolving, mathematical reasoning, algebra and geometry. <u>Any of the following alternatives will be accepted as</u> evidence of completion of one year's credit for this course of study.

1. Completion of over three-fourths of a textbook as long as it is designed as a full year credit textbook.

2. Any combination of textbook pages and daily logged entries describing the activities related to the course content, totaling 120 entries.

- 3. Logged entries of at least 120 entries and/or activities related to the course content.
- 4. Completion of a college course.
- 5. Passing test score on an Advanced Placement exam (i.e. 3 points out of a possible 5).

<u>General Diploma Science</u>: The three years of science can include: laboratory science (biology, chemistry, physics), life science, earth and space sciences, environmental sciences, chemical sciences, physical sciences, information sciences, allied health science and agricultural sciences. <u>Any one of the following alternatives will be accepted as evidence of completion of one year's credit for these courses of study</u>.

1. Completion of over three-fourths of a textbook as long as it is designed as a full year credit textbook.

2. Any combination of textbook pages and daily logged entries describing the activities related to the course content, totaling 120 entries.

3. Logged entries of at least 120 entries and/or activities related to the course content.

4. Completion of a research paper of at least 10 pages (typed 12 font doubled spaced or 2500 words) in length which demonstrates learning of a subject and includes the student's own conclusions based upon his research using no less than three resources other than an encyclopedia.

5. A 30 minute speech presented to a group outside of the immediate family. This speech should demonstrate an understanding of the subject and conclusions drawn by the student from his/her study.

6. Completion of a college course.

7. Passing test score on an Advanced Placement exam.

<u>General Diploma Social Studies</u>: The three years of social studies can include history of the United States and Pennsylvania, anthropology, ancient history, world history, multi-cultural studies, geography, civics and economics, political science, psychology, and sociology. Any one of the following alternatives will be accepted as evidence of completion of one year's credit for these courses of study. The <u>same alternatives</u> as described for the General Diploma Science will be accepted as evidence of completion of one year's credit for these courses of study.

<u>General Diploma Arts and Humanities</u>: The two years of arts and humanities can include art history, Bible studies, dance, visual arts, foreign languages, music history, music theory, practical arts and crafts, and theater. The <u>same alternatives</u> as described for the General Diploma Science will be accepted as evidence of completion of one year's credit for this course of study.

# \*STANDARDS FOR THE ACADEMIC DIPLOMA \*

Fifteen credits, as stated in Pennsylvania's education law, are required for a student to receive the **Academic Diploma**. The following guidelines must be used to determine if credits will be issued for this diploma.

<u>Academic Diploma English</u>: The four years of English must each include literature, composition, language, and speech as follows:

1. <u>Literature</u> - For each school year, the student will read or listen to at least <u>*fifteen*</u> age-appropriate books in any subject area, fiction or non-fiction, to include one classic. At the discretion of the evaluator, quality and length of books may be considered acceptable for credit if the quantity requirement is not met. The Bible is considered a classic.

2. <u>Composition and Language</u> - For each school year the student must demonstrate improvement in composition and language skills by writing <u>three compositions</u>, one of which is a longer composition of at <u>least</u> <u>5 pages (typed 12 font double spaced or 1250 words) using no less than three resources</u> other than an encyclopedia. In order to satisfy the language requirement, rough drafts which show corrections for punctuation, usage, and/or grammatical errors made during the writing process will be accepted. Alternatively, the language requirement may be met through completion of over 1/4 of a language or grammat textbook or at least 30 entries of work in language of grammar study.

3. <u>Speech, Visual communication/Performance</u> - The student must give at least one speech or

its equivalent in performance (musical theater, sign language (interpreting or performing), instructing/ demonstrating, mime, magic presentation, etc.) during the year to a group outside of the immediate family. Any one of the following will be accepted as proof that the student has met this requirement:

A. Notes which the student used when giving the speech, demonstration/instruction,

B. Recognition from those who heard the speech or viewed the performance,

C. A description of the speech or performance, written by the student or parent, or

**D**. Photographs of the student making the speech or performing in a play.

4. Or one of the following <u>alternatives</u> will be accepted for a credit:

<u>Sign Language</u> - The student may receive a partial or full English credit if a sign language course of study is taken during the given year. This would include textbook use, learning of American Sign Language (ASL), its structure including idioms and cultural aspects as well as experience with ASL.

5. Complete a College course.

6. Passed Advanced Placement Exam (AP, not CLEP)

Academic Diploma Mathematics: The three years of mathematics include problem-solving, mathematical reasoning, algebra I and II, geometry, trigonometry calculus, consumer math, analysis skills, etc. <u>Any one of the following</u> alternatives will be accepted as evidence of completion of one year's credit for this course of study.

1. Completion of over three-fourths of a textbook, as long as it is designed as a full year credit textbook.

2. Any combination of textbook pages and daily logged entries describing the activities related to the course content totaling 120 entries.

- 3. Logged entries of at least 120 entries and/or activities related to the course content.
- 4. Completion of a college course.
- 5. Passing test score on an Advanced Placement exam (AP, not CLEP).

Note: The student <u>must take one year algebra or one year geometry or 1/2 year of both</u> as part of the three mathematics courses required to receive an academic diploma.

<u>Academic Diploma Science</u>: The three years of science **must** include: at least one hands-on laboratory science to include 6 labs with lab reports (biology, chemistry, physics), life sciences, earth and space sciences, environmental sciences, chemical sciences, physical sciences, information sciences and agricultural sciences. <u>Any one alternative will be accepted as evidence of completion of one year's credit for this course of study</u>.

1. Completion of over three-fourths of a textbook as long as it is designed as a full year credit textbook.

2. Any combination of textbook pages and daily logged entries describing the activities related to the course content totaling 120 entries.

3. Logged entries of at least 120 entries and/or activities related to the course content.

4. Completion of a research paper of at least 10 pages in length (typed 12 font double spaced or 2500 words), which demonstrates learning of a subject and includes the student's own conclusions based upon his research using at least three resources other than an encyclopedia.

5. 30 minute speech presented to a group outside of the immediate family. This speech should demonstrate an understanding of the subject and conclusions drawn by the student from his study.

- 6. Completion of a college course.
- 7. Passing test score on an Advanced Placement exam (AP, not CLEP).

<u>Academic Diploma Social Studies</u>: The three years of social studies can include history of the United States and Pennsylvania, anthropology, ancient and world history, multi-cultural studies, geography, civics and economics, political science, psychology, and sociology. The <u>same alternatives</u> as described for the Academic Diploma Science will be accepted as evidence of completion of one year's credit for this course of study.

<u>Academic Diploma Humanities and Fine Arts</u>: The two years of arts and humanities can include art history, Bible studies, dance, visual arts, foreign languages, music history, music theory, practical arts and crafts, and theater. The <u>same alternatives</u> as described for the Academic Diploma Science will be accepted as evidence of completion of one year's credit for this course of study.

Note: <u>These are minimum requirements</u>. Students who plan to further their education should visit the website or contact the registrar from the college or university in which they are interested in attending in order to determine their requirements for specific program of study during high school.

# \*STANDARDS FOR THE VOCATIONAL-TECHNICAL DIPLOMA\*

While meeting the graduation requirements of 15 credits as stated in the Pennsylvania education law, students will integrate academic subjects and vocational studies. This will ensure a relevant and meaningful educational program. Both academic and vocational achievement will be monitored as is necessary within the cluster. Competency in a certain skill area must be shown before advancement. Progress can be made either individually or within a group.

Specific subjects to be covered within each cluster will be unique to that cluster. Math, science, etc.; will be chosen pertaining to the specific requirements of the field of study. Once meeting the graduation requirements, no additional credits are needed. The following guidelines must be used to determine if credits will be issued for this diploma.

Vocational-Technical Diploma English: The four years of English must include literature, composition,

language, and speech, with possibilities as follows:

Study skills - use of dictionary and research materials

Basic writing skills - research papers, technical reports, book reports, proposals, job estimates,

resumes, business letters, as well as, creative writing (i.e., short story, poetry, etc.)

Grammar - correction of writing projects.

Literature – any reading materials, fiction or non-fiction, related to your vocational training and growth.

<u>Vocational-Technical Diploma Mathematics</u>: The three years of mathematics should include math pertaining to the individual field of study, with possibilities of Algebra I and II (as related to the specific area of technology), Geometry, Trigonometry, Consumer Math, Analysis skills, etc... <u>Any one of the following will be accepted as evidence of one year's credit for this course of study</u>.

- 1. Completion of over three-fourths of a textbook.
- 2. Any combination of textbook pages and daily logged entries describing the activities related to course content totaling 120 entries
- 3. Logged entries of at least 120 entries and/or activities related to the course content.
- 4. Completion of a college course.
- 5. Passing test score on an Advanced Placement exam (AP not CLEP).

<u>Vocational-Technical Diploma Science</u>: The three years of science should include sciences pertaining to the individual field of study, with possibilities of biology, chemistry, environmental science, physics, space science, electronics, agriculture, computer science, medical science, etc...

Any one of the following will be accepted as evidence of one year's credit for this course of study.

1. Completion of over three-fourths of a textbook.

2. Any combination of textbook pages and daily logged entries describing the activities related to course content totaling 120 entries.

3. Logged entries of at least 120 entries and/or activities related to the course content.

4. Completion of a research paper of at least 10 pages in length (typed 12 font double spaced or 2500 words) which demonstrates learning of a subject and includes student's own conclusions based upon his research using at least three sources other than an encyclopedia.

5. A 30-minute speech presented to a group outside of the immediate family. This speech should demonstrate an understanding of the subject and conclusions drawn by the student from his study.

6. Completion of a college course.

7. Passing test score on an Advanced Placement exam (AP not CLEP).

<u>Vocational-Technical Diploma Social Studies</u>: The three years of social studies should include studies pertaining to the individual field of study. The <u>same alternatives</u> as described for the science credit will be accepted as evidence of completion of one year's credit for this course of study.

**Vocational-Technical Diploma Arts and Humanities**: The two years of study in this area may also pertain to the individual field of study, offering many possibilities to explore the student's interests. The <u>same alternatives</u> as described for the science credit will be accepted as evidence of completion of one year's credit for this course of study.

# \*\*\*Graduation Requirements: <u>When the courses required by Pennsylvania law have been met, a final</u> project must be completed in order to receive a Vocational-Technical diploma.

The student must complete a project in one or more areas of concentrated study under the guidance of the homeschool supervisor/instructor. The purpose of the final project, which may include research, writing or some other appropriate form of demonstration, is to establish that the student is able to apply, evaluate, and integrate the information learned and to effectively communicate with substantial knowledge and understanding. This project may be completed by the individual student or a group of students.

# **Vocational-Technical Clusters**

# 1. Technical Cluster

-Electronic technology -Computer technology -Engineering -Health/Medical assistant/EMT -Para-Legal -Surveying -Drafting and design technology -Law enforcement training -Fire fighter training -Scientific data processing technology

# 3. Communications & transportation cluster

- -Precision metalworking -Automotive technology -Outdoor power equipment technology -Commercial art
- -Graphic art
- -Advertising
- -Diesel technology
- -Precision machine technology

# 5. Miscellaneous

- -Agriculture
- -Performing arts
- -Forestry
- -Wildlife commission worker
- -Veterinarian assistant

- 2. Construction Cluster
  - -Carpentry
  - -Masonry
  - -Electrical construction & maintenance
  - -Building construction & maintenance
  - -Heating, ventilation, air-conditioning
  - -Welding
  - -Construction inspection

# 4. Service Cluster

- -Child care assistant
- -Teachers' aide
- -Cosmetology
- -Food production, management
- -Marketing and distribution
- -Horticulture and landscaping
- -Missions preparation

# \*STANDARDS FOR THE BUSINESS DIPLOMA\*

While meeting the graduation requirements of 15 credits as stated in the Pennsylvania education law students will integrate academic subjects and business studies. This will ensure a relevant and meaningful educational program.

Specific subjects to be covered will be chosen pertaining to a business curriculum. Achievement will be monitored and can be made either individually or within a group setting.

Once meeting the graduation requirements, no additional credits are needed. The following guidelines must be used to determine if credits will be issued for this diploma.

**Business Diploma English**: The four years of English must include literature, composition, language, and speech, to be integrated with specific areas of instruction such as;

Study skills including the use of dictionary and research materials,

Basic writing skills (research papers, resumes, business letters, etc.), as well as creative writing (short story, poetry, etc.),

Grammar, Communication skills, Book reports, Shorthand/Computer note hand Word processing and desktop publishing, Spreadsheets/Databases

**Business Diploma Mathematics**: The three years of mathematics should include math pertaining to business, with possibilities of bookkeeping, accounting I and II, business math, algebra I and II (as related to business use), applied mathematics, etc.. <u>Any one of the following will be accepted as evidence of one year's credit for this course of study.</u>

1. Completion of over three-fourths of a textbook.

2. Any combination of textbook pages and daily logged entries describing the activities related to course content totaling 120 entries.

- 3. Logged entries of at least 120 entries of study and/or activities related to the course content.
- 4. Completion of a college course.
- 5. Passing test score on an Advanced Placement exam (AP not CLEP).

# \*\*Note: The student <u>must take one year of either bookkeeping OR accounting</u> as part of the three mathematics courses required to receive a Business diploma.

# \*SUGGESTIONS OF STUDY TOPICS FOR BUSINESS DIPLOMA\* ENGLISH AND MATHEMATICS

Dictionary and research materials Research papers Resumes Business letters Book reports Word processing Desktop publishing Shorthand/Computer note hand Spreadsheets/databases Telephone procedures Customer relations/service Payroll Taxes-Federal, State, local Union dues logs Accounts payable Accounts receivable Accruals Order entry Medical Benefit programs Product knowledge Marketing Advertising Retail vs. Wholesale Computer skills

**Business Diploma Science**: The three years of science should include sciences pertaining to business, with possibilities of computer science, basic programming, advanced programming, etc. <u>Any one of the following alternatives will be accepted as evidence of one year's credit for this course of study:</u>

- 1. Completion of over three-fourths of a textbook.
- 2. Any combination of textbook pages and daily logged entries describing the activities related to course content totaling 120 study entries.
- 3. Logged entries of at least 120 entries and/or activities related to the course content.
- 4. Completion of a research paper of at least <u>10 pages</u> in length (typed double spaced or handwritten single spaced) which demonstrates learning of a subject and includes student's own conclusions based upon his research using at least three sources other than an encyclopedia.
- 5. A 30-minute speech presented to a group outside of the immediate family. This speech should demonstrate an understanding of the subject and conclusions drawn by the student from his study.
- 6. Completion of a college course.
- 7. Passing test score on an Advanced Placement exam (AP not CLEP).

**Business Diploma Social Studies**: The three years of social studies should include studies pertaining to business, with possibilities of marketing, entrepreneurship, business law, advertising, etc. The <u>same alternatives</u> as described for the Science credit will be accepted as evidence of completion of one year's credit for this course of study.

**Business Diploma Arts and Humanities:** The two years of study in this area may also pertain to business, offering many possibilities to explore the student's interests. Keyboarding or basic typing and MIDI could be included here. The <u>same alternatives</u> as described for the science credit will be accepted as evidence of completion of one year's credit for this course of study.

# \*\*\*Graduation Requirements: <u>When the courses required by Pennsylvania law have been met, a final project must be</u> <u>completed in order to receive a Business diploma.</u>

The student must complete a project in one or more areas of concentrated study under the guidance of the homeschool supervisor/instructor. The purpose of the final project, which may include research, writing or some other appropriate form of demonstration, is to establish that the student is able to apply, evaluate, and integrate the information learned and to effectively communicate with substantial knowledge and understanding. This project may be completed by the individual student or a group of students.

# **SVHDP - TRANSCRIPT FILING/DIPLOMA INFORMATION**

We are very pleased that you have decided to file your transcript with the Susquehanna Valley Homeschool Diploma Program. The transcript filing/diploma fee is \$45 (if not participating in graduation) and \$65 (if participating). These fees must be paid at the time of filing. We will not release any information to anyone (prospective colleges, employers, etc.) unless we receive a signed request from the student. There is a separate transcript fee of \$5.00 per request. Please use the appropriate form. The official sealed transcript will be sent to the student which can then be forwarded to the organization.

**DEADLINES FOR FILING:** June 1st for the July graduation and December 1st for the January graduation. This applies to ALL students regardless of participation. If deadline is not met, graduate will be moved to the next graduation date.

# **Final Summary**

Use the charts on the following pages to plan your four years and to check off items when completed, you may want to use pencil for course planning as your needs and desires may change.

# **Total Number of Credits:**

Deguined Cubic etc	Total Credite	$\mathbf{C}_{\mathbf{a}}$ and $\mathbf{C}_{\mathbf{b}}$	Senior Projects*
Required Subjects	Credits	Completed(X)	(Vo Tech & Business)
 English (4 credits)			
Math (3 credits)			
Science (3 credits)			
 Social Studies (3 credits)			
Humanities (2 credits)			
Electives			

- You must have four evaluations or a combination of evaluations and transcripts from public or private school to equal four years of work.
- Transcripts <u>must</u> be completed and signed by evaluator and parent and <u>must</u> be filed with SVHDP <u>in</u> <u>order to receive a diploma.</u>
- \_\_\_\_\_ July Graduation (Form to be completed & sent by June 1<sup>st</sup>), regardless of whether or not your son/daughter will be participating in the graduation ceremony.

January Graduation (Form to be completed & sent by December 1<sup>st</sup>), regardless of whether or not your son/daughter will be participating in the graduation ceremony.

\_\_\_\_\_ If participating in the graduation, a short (100 word) biography of the student will be needed for the program. Please submit by June 30<sup>th</sup> or November 30<sup>th</sup>. If not received by these dates, we cannot guarantee that it will be placed in the program. Your cooperation in this matter is appreciated.

Packets will be sent to you containing graduation information (date, time, directions) when your student decides if he/she will be attending the graduation ceremony in Harrisburg (location may change depending upon availability). Please avoid last-minute decisions. We may not be able to accommodate your application request. Check our website for any updates or changes.

Please be sure to send the transcript filing form by the above date(s). All those students who send filing forms after the date specified must wait until the next graduation date. <u>All</u> diplomas for non-participating students will be mailed out <u>after</u> the graduation ceremony date.

<u>Please make note:</u> The following listed subjects must be covered sometime between grades 7 and 12. Check off those which you have completed.

x	Subject	х	Subject	х	Subject	х	Subject
	Geography		Geometry		Civics		Safety/Fire Ed.
	World History		Health/physiology		US & PA History		Phys. Ed.
	General Math		Algebra		Music		Art

If at any time you have questions regarding the program, issuing of credit or needing help with organizing your high school program, OR for those individuals who would like to speak at our graduations or have questions about transcripts, please feel free to contact:

# Sandy Elliott: (717) 580-5206 (Especially for evaluators & questions about home school law). email: selliott095@gmail.com

For those evaluators who would like to be approved for this diploma program, please contact:

```
Fran Lindsay: (717) 592-0073
```

email: aslan2fran@aol.com

If your student is planning on attending a college or university, it would be prudent for you to contact that institution and request an overview of their requirements for entry. Many institutions require more than 15 credits including several extra curricular activities listed on transcripts.

The following checklists on pages 17-20 are for your convenience. The transcript that is to be completed by your evaluator is on the last page. If the evaluator uses a not descriptive checklist style evaluation, please have them complete the checklist to be submitted with the evaluations and transcript.

# For a list of the Board of Directors, please visit our website www.svhomeschool.org.

**For a current list of evaluators, please go to our website www.svhomeschool.org**. You may also download the necessary forms related to transcripts and graduation. Information about graduation will be posted including date and time and directions to the graduation site.

# May our Lord bless you abundantly in your pursuit of a better education.

# **REQUEST FOR OFFICIAL TRANSCRIPT**

This form is to ensure that all pertinent information is supplied so that we may process this request in a timely manner. Upon receipt of this form and a check for \$5.00, a sealed official transcript will be sent to your home stamped with our official seal and sealed in an envelope. You are to forward or hand-carry the transcript (unopened) to the institution or organization requiring this document. Unfortunately, due to many institutions discarding the transcripts we have sent it is necessary for us to mail this document directly to the student. (If you are sending to more than one institution/organization, make extra copies of this form.)  $\ge$
